JONES COUNTY COURT—

COMMISSIONERS DISCUSS LAND RE-EVALUATION

By ROY CRAIG
Stamford American

The question of re-evaluating Jones County property for tax purposes was brought up at the meeting of the commissioners court Monday at Anson but drew little support.

Tom Boyd, Commissioner of Precinct 2, made the suggestion and he drew a statement from County Judge Leon Thurman that he would not stand in the way. However, cold water was thrown on the idea by Commissioners Lem Ruark and Johnny Agnew.

County Auditor Carl Savage recommended in his audit last year that the county take this step.

Ruark said, "I don't believe you can value farming land at what it will sell for. Land is too high. Land won't make a profit at this high price."

Ruark admitted that some action will need be taken but he said he thought the thing to do would be to try to work out a county-wide survey with all the taxing groups—school districts and cities—sharing the cost. Ruark said there was no question but that farm land values are too low.

"When you raise a man's taxes, you can expect a yell," Agnew put in.

Boyd took over as commissioner the first of the year with Precinct 2 \$17,000 in the red. "I don't see how I can work out and do what has to be done without more money," he said.

Commissioners assured him that it would all work out, given time.

Financial report as of March 31 shows that deficit in Precinct 2 has been reduced to \$9,729.26.

Commissioners told Arnold Wedeking, commander of the National Guard unit at Stamford, that the county could not gravel the parking area around the armory. Wedeking had explained that heavy equipment is now being used by the units since re-organization and the graveling is necessary.

Commissioners pointed out that the court gave the Guard \$1,000 last year. Judge Thurman suggested that Stamford should do the work but Wedeking countered with the statement that the city pays \$50 a month towards operating expenses of the unit.

Commissioner Boyd offered to load the gravel with his loader if Wedeking could get someone to furnish the trucks. Cost of the gravel, he brought out, is minor, only 7 1/2 cents a yard. It was estimated 1,000 yards would be needed.

The court approved payment of \$700 to Lone Star Gas Co. for re-laying a line at the intersection of the New Hope road and the new farm road, at the Lyckman corner.

Also approved was payment of \$776.59 to a Cosden pipeline subsidiary for moving a line for improvement on Highway 380.

The court will set as a Board of Equalization on the second Monday in May.

EASTER LILY SALE SET FOR SATURDAY; \$960 RAISED HERE

The Lily sale will be held in front of the Farmers and Merchants National Bank Saturday.

Another means of raising money for the Center is the Cattleman's Roundup for crippled children. The livestock is accepted at anytime during the year. A receipt is given to the donor for the full sale price of the animal.

This is tax deductible. Bill Feagan, area chairman for pick up and delivery, will handle all details for the cattleman's roundup here. Anyone having any livestock to be given at this time is urged to contact Feagan.

The Center averaged treatment of 835 patients during the month of February. Eight from Hamlin are now receiving treatment as compared to two patients there last year at this time.

SURPLUS GOODS DISTRIBUTION RULES TIGHTENED BY STATE

The Texas Welfare Department has issued new rules governing distribution of surplus goods which could have a strong bearing on the number eligible in Jones County.

R. S. Palmer, who runs the distribution center at Anson for Jones County, appeared before the commissioners court Monday asking that an investigator be employed to carry out the new provisions.

According to Mr. Palmer, all families receiving aid who are not on the Old Age Assistance rolls must submit to an interview every three months rather than every six months. In addition, an investigator must check out the information obtained in the interviews.

Mr. Palmer told the court that more than 300 families fall into this category.

Florence Erdman Featured in Paper

Florence Erdman, daughter of Mr. and Mrs. B. A. Erdman of Old Glory, was featured in a story appearing in "The Courier" school paper of Concordia Teachers College at Seward, Nebraska, where she is a senior student majoring in Elementary Education.

She will graduate this spring following student teaching at Denver, Colorado. Florence's minor is Physical Education.

The article read in part: "Florence combines quality performance with feminine grace as a second year participant in girl's basketball in college she played post forward and maintained the enviable position of top scorer."

"Basketball for Florence began in grade school when recess meant time for a few jump shots rather than a jump rope. In her junior and senior years at Old Glory School in 1958 and 1959 she was selected as a member of the all-tournament team of the Hardin-Simmons Invitational Tournament."

Supt. V. R. Leverett and T. E. Pritchard were her coaches in high school, and both men still teach at Old Glory.

Florence is the high scoring member of the Concordia Co-Eds. Recently they evened their wins and losses and Florence averaged close to 30 points each game.

While in school at Old Glory Florence was an outstanding 4-H club member. She and her teammate the former Terry Gholson, placed fifth in Vegetable Preparation Demonstration at Texas 4-H Round-up in 1959. Her ability to handle a tractor and farm is amazing.

Mrs. Eddie Mathews served as accompanist. A trio composed of Nancy and Marvin Vahlenkamp and Sharon Leverett sang "The Three Bells."

Supt. V. R. Leverett and T. E. Pritchard were her coaches in high school, and both men still teach at Old Glory.

Florence is the high scoring member of the Concordia Co-Eds. Recently they evened their wins and losses and Florence averaged close to 30 points each game.

While in school at Old Glory Florence was an outstanding 4-H club member. She and her teammate the former Terry Gholson, placed fifth in Vegetable Preparation Demonstration at Texas 4-H Round-up in 1959. Her ability to handle a tractor and farm is amazing.

First place winners were—Sharon Leverett, prose reading; Larry Quade, prose reading; Linda Gholson, ready writing; Judy Sander and Rebecca Letz, spelling (5 and 6); Gary Moore, ready writing. Second place winners—Rhonda Baitz, number sense; Rhonda Baitz, slide rule; Sofia Vargas, ready writing. Third place winners—Larry Quade, typing; Kenny Spitzer, slide rule; Donald Bales, science; Lyndell Quade, declamation; Stephanie Letz and Gary Moore, spelling (7 and 8); Marilyn Flow and Linda Newman, spelling (high); Stephan'e Letz, number sense; Johnny Garner, story telling.

Others who participated—Regina Letz and Weldon Spitzer, picture memory; Judy White, declamation; Clifford Gholson, number sense; Marva Dudenising, typing; Danny Lambert, poetry interpretations.

Adults who accompanied the group were Mrs. Jane Pritchard, Mrs. Maxine Klump and Mr. V. R. Leverett. Old Glory has now qualified sixteen in events at regional. Some of these are overlaps, for example Sharon Leverett has won first in prose reading, tennis and in one-act play. Larry Quade will be entered in prose reading and typing. Rhonda Baitz will be entered in slide rule and number sense.

Homemaking I and II classes joined in the preparation of a banquet type meal which

was given Friday night. The meal featured Turkey and Dressing and included homemade rolls and homemade sherbert. Following the theme of "April Showers" card tables were set up in a zig-zag fashion in the hall. Colored table clothes and plastic flowers added to the attractiveness. The guest list included mothers of the girls in the two classes and Mrs. Maxine Klump, Mrs. Verma House, Mrs. George Mathews, and Mrs. Vera Beil. Mrs. V. R. Leverett is Homemaking teacher.

Major Glen T. Johnson and family of Wichita Falls visited over the week end with his parents, Mr. and Mrs. Bunyon Johnson. Miss Virginia Johnson was a dinner guest with the family Sunday.

Mrs. Malcolm Hertenberger of Rule has returned to her home from Hendrick Hospital at Abilene where she had been a patient several weeks. She

is greatly improved and her friends and relatives are glad to know that she is at home again.

Week end guests of the M. J. Sellers family was their son, Billy, who is a student at Cisco Junior College and two college mates, Herbert McCormick of Fort Worth and Viv Sanders of Woodson.

Saturday guests in the V. R. Leverett home included their daughter, Clarice, who is a student at ACC and three of her friends; Joyce Wolff from Paso Robles, California, Ronnie Matthews from Newburgh, N. Y., and Delvin Sparks from Azle, Texas. Sunday guests of the Leveretts included Audrey Reagan of Merkel and Nowlin Foster of San Diego, California.

Mr. and Mrs. Joe Henry of Rotan visited with the Cliff Gholsons on Sunday.

Agent Says Foods May be Refrozen

When a frozen food thaws in your home—by accident or otherwise—it is not always necessary to discard it, says Mary Y. Newberry, Jones County Home Demonstration Agent.

If the temperature of the food has not risen above refrigerator temperature (40 degrees F.) then you may consider refreezing it, provided it has acceptable odor, texture, and color.

The process of refreezing itself introduces no hazard, if the partially thawed food is safe to eat, it is safe to refreeze.

Here are facts about refreezing from research by USDA's Agricultural Research Service and other agencies:

A rise in a food's temperature up to thawing impairs

color, flavor, and texture, and the refreezing period causes further loss in quality. If the total time involved is short enough, there may be enough quality left to justify refreezing.

No health hazard is involved if the temperature of the food has not risen above ordinary refrigerator temperatures. Food poisoning bacteria have never been found to grow at temperatures below 38 degrees F., and they grow very slowly between 38 and 45 degrees F. Other bacteria can grow slowly at these or even lower temperatures; they cause off-odors and off-flavors that spoil foods but do not cause food poisoning.

TWO ASSAULT TO MURDER CASES ON COURT DOCKET

Set for trial in 104th District Court at Anson next week will be two assault to murder charges against two Stamford negro women. Also docketed for the week is a civil suit that has

been pending since 1961. Although both charges allege the same offense, there is no relation between the two criminal cases. One charges that Nina Faye Cunningham, with malice aforethought, did assault with intent to murder Irene Cooper on Jan. 12 of this year.

Frances Ruth Hogg is charged in the other case. On Feb. 7, she is alleged to have committed assault on Albert Robertson. The woman was indicted by the grand jury on two counts. Both cases allege that the women charged had pistols.

The civil suit scheduled to be heard during the week is entitled John Ball vs. A. C. Humphrey, Bailiff, a Breckenridge heavy equipment operator, seeks to collect balance which he says is due on a landscaping contract.

Monday morning of this week a suit, titled Johnnie Mae Walker vs. Northern Assurance Company, was settled out of court. A jury had been summoned to hear the case but was dismissed.

Husband of the plaintiff was killed and question dealt with distribution of the insurance. A previous wife, a child and parents of the deceased were involved. Compromise called for a three-way split. Total amount involved was \$11,805.39 but lawyers' fees and court costs must be subtracted.

Dates Set for Camp Fire Summer Camp at Lueders

Camp O-DA-KO, summer camp for all Camp Fire Girls of this area, will be June 3 to 7.

A full schedule for campers includes swimming, art, games, handwork, music, hikes and rest periods. Meals are served in the newly air conditioned dining hall.

Mrs. W. C. Taylor of Stamford is the camp director and all reservations should be sent to her. Reservations will be accepted until May 1.

Approximately 200 girls attended camp last year.

HEIDENHEIMER'S

ALABAMA MAN WRITES ABOUT COVERED WAGON DAYS IN AREA

A rather interesting letter was received at the Hamlin Herald office this past week written by Robert R. Gibson from Batson Memorial Hospital in LaFayette, Alabama.

In the letter he explained that he traveled in the Hamlin area as a young boy with a family named Lewellyn who had a buckboard, four extra horses and a covered wagon in which they lived. He said at times they had teamed up with another family, a Mr. and Mrs. Rhodes and their unmarried daughter.

He remembers that he left the Lewellyns at Hamlin, about 40 years ago this coming summer to return to school. At this time there were approximately 25 covered wagons and families camped about a mile from Hamlin. They were there awaiting "trade day or days."

Now it seems that Mr. Gibson's friends in Alabama cannot understand that covered wagons were still being used for conveyance in early 1920's here and he would like to receive word from some early resident of the area who could shed some light on the subject of covered wagons and the "trades day."

The Herald is passing along some of the items he mentions so that maybe someone might remember a part of this period of Hamlin's history and get in touch with Mr. Gibson.

In a hurried check of the 1923 issues of the Hamlin Herald we found no reference to the use of wagons but we did find an ad for a man who wished to trade a number of cows for a second-hand Ford.

Also included in the letter was an editorial from the Atlanta (Ga.) Journal-Constitution which included information that he had written to one of the paper's columnists.

The columnist mentions that he did not give his age but did refer to himself as an "old-timer." She surmised that since he was a World War II veteran he would not be a doddering old codger.

The columnist related some of the stories he had written in about experiences as a youth traveling in West Texas with an abbreviated wagon train. She quoted Gibson about his first night out when the old three-legged iron Dutch oven starred in the supper preparations—"biscuits, soaked salt pork, eggs, strong coffee. . . I never tasted such food!"

She concluded: "All I have got to say is did an electric frying pan or, for that matter, an aluminum anything ever evoke such memories?"

(Editors note: All of this has made us curious about the happenings here two decades ago so if anyone has any information for Mr. Gibson we would appreciate knowing too, and we will send it on to him.)

HAMLIN, JONES COUNTY, TEXAS, APRIL 11, 1963

SPRING WEATHER BRINGS ON HIGHER SCREWORM ACTIVITY

Mission — Spring weather over most of Texas means livestockmen are facing a busy season when calving, farrowing, shearing, dehorning and the many other animal husbandry activities are occurring. It could also mean screwworm activity may not be too far in the future, especially if producers are not careful in handling animals and treating wounds, eradication officials state.

The many open wounds, so attractive to the screwworm fly, that now exist because of the normal spring livestock activities make many areas of the state a "veritable tinderbox" for infestation, eradication officials warn. They urge producers to carefully treat every wound, whether a small nick or scratch or a large open cut, making certain that the insecticide used gets down in the center of the wound and is not drained away by blood. Spraying livestock with a solution of 0.25 per cent Corral or 0.5

applies to livestock being moved from areas south of the screwworm control line into other areas of Texas or the nation.

Every case now being detected is treated as an emergency in an attempt to quickly overwhelm the insect before it can infest other areas. This makes prompt reporting by producers imperative, officials said.

C. G. Scruggs, president of the Southwest Animal Health Research Foundation, has stated it would be traitorous for a man not to report anything he thinks is a screwworm case. A few cases that are not treated and reported at this time could ruin and waste everything that has been done up to now, he said.

FACTS ABOUT PLYMOUTH'S NEW WARRANTY*

DOES IT INCLUDE THE COST OF LABOR?	DOES IT COVER EXPENSIVE PARTS?	IS IT TRANSFERABLE WHEN YOU SELL THE CAR?
Yes. There is absolutely no charge for labor and parts. For the entire life of the warranty, should any defect in material or workmanship occur on the parts covered by the warranty, it will not cost you one single cent to have this defect corrected.	Absolutely! It covers the major power train components—the engine block and its internal parts, the automatic transmission and its internal parts, the rear axle. These are parts that would normally cost plenty to replace or repair.	Yes. As long as the car has been serviced at reasonable intervals according to the Plymouth-Valiant Certified Car Care schedules, the warranty can be passed on to the new owner. Think what that will do to the resale value of your Plymouth!

FAIRVIEW NEWS

By MRS. ELMER JOINER

Every one is rejoicing over the rain that fell so nicely last week, which amounted to a little over an inch, generally. Since it was so long falling and none of it was wasted, it was really a life saver to the wheat crops. We are hoping for more, but thankful for what we got.

Another thing which is very nice, the time has come that the fruit crop is safe again. Since none was made last year, the cold weather killing it, all are glad to see it get by this year.

A good part of the folks out our way attended the singing in Anson Sunday afternoon. Mr. and Mrs. Rallegth Bond, Mr. and Mrs. Flavel Holmes, Mr. and Mrs. Jack Wright, Mr. and Mrs. Fred Rosenbaum and Mr. and Mrs. Winson Gray were some of those attending.

Mr. Jonathan L. Wilson was a visitor in church Sunday morning and took lunch with the H.L. Fords. Mr. Wilson and his late wife were former residents of our community, he now lives in Abilene, and is a member of the Caps Baptist Church.

Midweek services were well attended, even though we didn't have any one to play the piano, we had a singing any way. Ricky Lewis being sick with sinus, the pastor's wife could not come, so we just had a singing with out the music.

Mrs. Henry is reported to be doing real well after her surgery. Mr. Henry's sister, Mrs. Ethel Bullock, is staying with them while Mrs. Henry is recovering.

Mrs. Mel Jones and Mrs. Elmer Joiner visited with Mrs. Henry Monday afternoon.

Flavel Holmes and Jack Wright went to Stamford and visited with Mr. Wainscott in the hospital, Sunday afternoon.

Mr. and Mrs. Woodrow Goodwin spent the day with Mr. and Mrs. Elmer Joiner Friday and they all watched it rain all day, which was a good way for Woodrow to celebrate his birthday.

Mr. and Mrs. Elmer Joiner spent the weekend in Odessa with their son, Mr. and Mrs. Buck Joiner and children. Larry McCoy went with them.

Since grandmothers love to do a little bragging, this one was happy to learn that Charles Joiner had won first place in the first division, at the University Interscholastic League tryouts, with his third class solo on the alto saxophone. Charles is a member of the band at the Hood Junior High School, in Odessa, and one of the three in the first division. He and Jerry, who is also a member of the Hood School band, played in the Hamlin band until they moved to Odessa a year ago.

We hear that Mrs. Winson Gray was a lucky winner at the Production Credit meeting in Stamford, Saturday, having won \$25.00.

The Drakes are working on their house, putting siding on it.

Mr. and Mrs. Woodrow Goodwin and Linda, went to Spur Saturday night to visit with his sister, Mr. and Mrs. Archele Hogan.

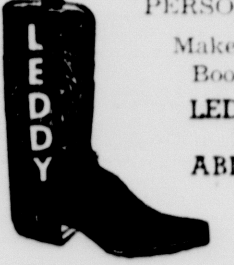

Mr. and Mrs. Joe Ford visited with Mr. and Mrs. Henry Sunday afternoon.

GAS is instant-On, instant-Off — no heat hangs over to cause messy boil-overs. GAS puts hundreds of temperature variations at your fingertip (instead of the few "heat settings" offered by high-voltage ranges). And GAS automatic controls are the most sensitive you can buy.

STATE'S TORNADO WARNING SYSTEM READY FOR SEASON

Austin — Texas will meet the 1963 tornado season with one of the world's most complete storm warning systems, and with a well-oiled public health relief organization.

Radar storm warning sets in operation in 15 of the state's 18 first-order weather bureaus. All state highway patrolmen have been carefully schooled in the wily ways of the weather and are keeping a sharp eye on the sky as they patrol their sectors.

Texas' "local severe weather warning system," the first of its kind established anywhere in the world, is made up of sets operating around the clock in Amarillo, Abilene, Austin, Brownsville, Corpus Christi, Galveston, Fort Worth, Houston, Port Arthur, San Angelo, San Antonio, Victoria, Waco and Wichita Falls.

Of the first-order weather stations which cover all sections of Texas, only El Paso, Laredo and Del Rio do not have radar storm warning sets as part of their regular equipment inventory.

All stations are connected by teletype and radio. Any station is able to instantly appraise all other stations of a tornado traveling in their directions. When such a storm warning is given, the weather bureau in its line of approach immediately notifies all communities in the area via commercial radio and television station bulletins.

The radar sets are owned by the Weather Bureau, having been supplied from U. S. Government surplus stocks, but the cities concerned paid installation costs.

Louisiana and Oklahoma are cooperating in the southwest-

tern warning network by operating networks of their own. The Texas network is larger, however, by virtue of the area to be covered.

State Health Commissioner Dr. J. E. Peavy says the State Department of Health and local health departments stand ready at all times to provide public health know-how to stem health threats occasioned by weather.

Meanwhile, these precautions are still valid if and when a tornado is sighted:

Cut off gas and water before it strikes. Open windows on the north and east side of the house. If possible, take shelter in a storm cellar or cave. If this is impractical, sit down on the lowest floor of a strongly reinforced building, or against the southwest corner of a house. Stay away from windows.

In open country, move away at right angles to the path of the storm. If there is no time to escape lie flat in a ditch or depression to avoid flying debris. (A weekly feature of the Health Education Division, Texas State Department of Health.)

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin — "Hi Pardner" . . . about \$150. Or just the cost of the new dies.

Better get your pencil and paper out and start thinking. Everybody's doing it!

Reason is, there's a bill before the Texas House of Representatives calling for a slogan to be imprinted on our auto license plates. Three choices are given in the bill. They are "Lone Star State" . . . "Vacation State" . . . "Texas Has Everything."

Latter slogan was sent in by a newspaperman, Bob Bray, publisher of the Marble Falls Highlander.

Come to think of it, what's wrong with "Hi Partner"—the two words we used in starting this column? Sounds like the friendly welcome of a Texan. . . . in state or out of state.

Cost of adding a slogan to the Texas tags would run only

any governmental aid except for the use of some county bulldozers.

Land Commissioner Jerry Sadler protested a bill by Rep. Roy Arledge of Stamford which would force all agencies except the Texas National Guard, Texas State Guard, and the Department of Public Safety to sell all "executive-type aircraft" with more than 200 horsepower.

Sadler said the Arledge bill was aimed mainly at the Land Office. He insisted the State Land Office needs an airplane for arial surveys of state land.

ANNEXATION COMPROMISE — Municipality annexation bill, as passed by the house, is considered a compromise by the Texas Municipal League. Ditto for interested industries—including the Texas Association of Homebuilders—that have been on the other side of the fence.

Straddling the fence during the four days it took the House to pass on the bill written by Rep. Henry Grover of Houston, and rewritten by Rep. Jerry Butler of Kenedy, were enough representatives to decide the matter for one side or the other.

Several votes indicated the cities might win the right to annex additional territory in a manner they consider reasonable. Other votes indicated the industrial pressures would be the winning factor.

Finally, 130 House members

decided Grover's bill was good enough to send to the Senate as a "workable vehicle" for a joint conference committee.

But 14 felt that it still wasn't fair either to cities or to rural people living on fringes of the cities.

Main point in contest still seems to be: How much authority should cities have over surrounding areas subject to annexation?

As it stands, cities would be limited to setting "minimum standards."

AUTO INSPECTION DEADLINE — Col. Homer Garrison Jr., director of the State Department of Public Safety, has sent out a reminder to Texas drivers who do not have their 1963 auto inspection stickers that April 15 is the deadline.

If Rep. Terry Townsend of Brady has his say the \$1 auto inspection fee will be raised to \$2. But Rep. George Richardson of Fort Worth said he will oppose any increase.

CROP INSURANCE — Farmers will get more liberal crop insurance coverage under revised policies and rates issued by the State Board of Insurance. New plan eliminates the controversial mechanical-harvesting clause pertaining to cotton.

Revisions were requested by both wheat and cotton growers.

Coverage will be available under economically-priced "escalator" and "step-ladder" forms, as well as "broad form" policies.

GOVERNOR'S APPOINTMENT — Frank C. Erwin Jr., Austin attorney, was named by Governor Connally to the UT board of regents, to replace Judge W. St. John Garwood, also of Austin, whom the Senate earlier refused to confirm.

Jack Kultgen of Waco was his choice as State Highway Commissioner. He replaces Charles Hawn of Athens, whose term has expired.

Rev. C. A. Holliday, a Negro minister of Fort Worth, has been named by Connally to a six year term on the Texas Board of Corrections. He succeeds John S. Justin Jr. of Fort Worth, Connally pointed out that this is the first time a Negro had been appointed to the board.

Connally re-appointed to the Board of Corrections J. M. Windham of Livingston and Jack Vaughan of Dallas.

Dr. J. A. Chatman of Lubbock, Joseph A. Scott Jr. of San Antonio and Rev. Martin Griffin of Waco were assigned to the Texas Southern University's Board of Directors. All are Negroes. They replaced J. M. Odom of Austin, Mack H. Hannah Jr. of Houston and the late Dr. Everett H. Givens of Austin.

Mrs. Jack T. Bowman of San Antonio was appointed to the Board of Regents of Texas Woman's University. Mrs. John

NEINDA PHILOSOPHER REPORTS THERE ARE PLENTY OF ANSWERS ON CUBA BUT NONE OF THEM WILL WORK

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One looks at a problem this week but then throws up his hands. Dear editor:

Somebody has to do it, and there's always plenty of men hunting the job, but being President of the United States is one job I wouldn't be interested in. Too many problems with no answers.

I don't mean to say that running this Johnson grass farm doesn't involve a lot of problems, and some of them may not have any answers, but I don't have to contend with a lot of people furnishing answers that won't work. And even in the worst year, there are always times when I can wake up some mornings without anything really bothering me. This doesn't happen in the White House.

For example, right now everybody wants the United States, and therefore the President, to do something about Cuba.

One man out of many I was listening to on television said the way to handle Cuba is simple, just cut off the flow of oil to the island, that'll bring Castro to his knees. Now I'll admit you can't run machinery or a country very long without oil, I've tried it with my tractor and it's the quickest way I know to bring it to its knees, and also to the repair shop.

So when somebody asked, "Wouldn't stopping a Russian ship bearing oil to Cuba be an

Hazelwood of Amarillo was re-appointed.

To the Texas Tech Board of Regents the governor named Herbert Allen of Houston and Roy Furr of Lubbock. He re-appointed Harold Hinn of Dallas.

LEGISLATIVE WIND UP — Governor Connally and House Speaker Byron Tunnell seem to agree that the 58th Legislature should wind up its business before the May 27 deadline. This should please the Legislators. They stop getting the usual \$12 per day living allowance 20 days before that deadline.

But many are afraid the loan shark bill may hold them here.

Six Flags to Open Summer Season Saturday, April 20

The 1963 season for Six Flags Over Texas will commence on Saturday, April 20. The third operating year for the historical theme park, located midway between Dallas and Fort Worth, has been set up to begin on a Saturday and

Sunday basis only until June 1. For the months of June, July and August, Six Flags will be open seven days a week. Following Labor Day in September and continuing through December 1, the Park will revert to a week ends only operation.

Following a siege of bad weather a few weeks ago, which hampered the nearly \$1,000,000 expansion program, balmy

days have followed bringing smiles to the engineers and construction workers who are charged with having the Park in tip-top operating shape by April 20.

Projections on attendance for this year indicate an even higher figure than the 1,272,000 visitors who clicked through the turnstiles in 1962.

Part of the heavy expansion program is centered around a new six acre site added to the U.S.A. Section of Six Flags. It will be known as "Boom Town," depicting the days of the exciting oil discovery finds in Texas during the late 1890's and early 1900's.

In the year 2000, Easter Sunday will be on April 23.

JONES COUNTY COURT—

COMMISSIONERS DISCUSS LAND RE-EVALUATION

By ROY CRAIG
Stamford American

The question of re-evaluating Jones County property for tax purposes was brought up at the meeting of the commissioners court Monday at Anson but drew little support.

Tom Boyd, Commissioner of Precinct 2, made the suggestion and he drew a statement from County Judge Leon Thurman that he would not stand in the way. However, cold water was thrown on the idea by Commissioners Lem Ruark and John Agnew.

County Auditor Carl Savage recommended in his audit last year that the county take this step.

Ruark said, "I don't believe you can value farming land at what it will sell for. Land is too high. Land won't make a profit at this high price."

Ruark admitted that some action will need be taken but he said he thought the thing to do would be to try to work out a county-wide survey with all the taxing groups—school districts and cities—sharing the cost. Ruark said there was no question but that farm land values are too low.

"When you raise a man's taxes, you can expect a yell," Agnew put in.

Boyd took over as commis-

JONES COUNTY COURT—

COMMISSIONERS DISCUSS LAND RE-EVALUATION

By ROY CRAIG
Stamford American

The question of re-evaluating Jones County property for tax purposes was brought up at the meeting of the commissioners court Monday at Anson but drew little support.

Tom Boyd, Commissioner of Precinct 2, made the suggestion and he drew a statement from County Judge Leon Thurman that he would not stand in the way. However, cold water was thrown on the idea by Commissioners Lem Ruark and John Agnew.

County Auditor Carl Savage recommended in his audit last year that the county take this step.

Ruark said, "I don't believe you can value farming land at what it will sell for. Land is too high. Land won't make a profit at this high price."

Ruark admitted that some action will need be taken but he said he thought the thing to do would be to try to work out a county-wide survey with all the taxing groups—school districts and cities—sharing the cost. Ruark said there was no question but that farm land values are too low.

"When you raise a man's taxes, you can expect a yell," Agnew put in.

Boyd took over as commis-

The Center averaged treatment of 835 patients during the month of February. Eight from Hamlin are now receiving treatment as compared to two patients there last year at this time.

There is no charge to the patient. Each new patient must be referred to the Center by a medical doctor.

According to Mr. Palmer, all families receiving aid who are not on the Old Age Assistance rolls must submit to an interview every three months rather than every six months. In addition, an investigator must check out the information obtained in the interviews.

Mr. and Mrs. Herschel Nofsfinger of Central City, Kentucky, visited last week in the home of his cousin, Mr. and Mrs. Darwin Barnes. They spent quite a bit of time sight seeing at some of the various places of interest in this part of the country.

Mr. and Mrs. Trovce Hargrove, Tammy and Kathy of Crane visited over the week end in the home of his parents, Mr. and Mrs. W. C. Hargrove. On Sunday they all went to Cross Plains to visit with W. C. Hargrove's parents, Mr. and Mrs. D. C. Hargrove.

Because of a misunderstanding last week, we made a boo-boo. In the article concerning Connally's purchase of the Ford Dealership here, we failed to mention Mrs. Connally's father, W. E. Newsom. Please accept our apology.

PLEASE REMEMBER if you have guests over the Easter week end or if you visit out of town, be sure to let me know about it BEFORE NOON on Tuesday. This includes the college students who will be home for the holidays.

That white tombstone that has been traveling around town and showing up in front yards of residences happens to be a part of the Jaycees membership campaign. It seems that the tombstone lettered with "Here lies a dead Jaycee," stays in the yard of a member until he recruits a new member into the club.

Florence Erdman Featured in Paper

Florence Erdman, daughter of Mr. and Mrs. B. A. Erdman of Old Glory, was featured in a story appearing in "The Courier" school paper of Concordia Teachers College at Seward, Nebraska, where she is a senior student majoring in Elementary Education.

She will graduate this spring following student teaching at Denver, Colorado. Florence's minor is Physical Education.

The article read in part: "Florence combines quality performance with feminine grace as a second year participant in girl's basketball in college she played post forward and maintained the enviable position of top scorer."

"Basketball for Florence began in grade school when recess meant time for a few jump shots rather than a jump rope. In her junior and senior years at Old Glory School in 1958 and 1959 she was selected as a member of the all-tournament team of the Hardin-Simmons Invitational Tournament."

Supt. V. R. Leverett and T. E. Pritchard were her coaches in high school, and both men still teach at Old Glory.

Florence is the high scoring member of the Concordia Co-Eds. Recently they evened their wins and losses and Florence averaged close to 30 points each game.

While in school at Old Glory Florence was an outstanding 4-H club member. She and her teammate the former Terry Gholson, placed fifth in Vegetable Preparation Demonstration at Texas 4-H Round-up in 1959. Her ability to handle a tractor and farm is amazing.

Agent Says Foods May be Refrozen

When a frozen food thaws in your home—by accident or otherwise—it is not always necessary to discard it, says Mary Y. Newberry, Jones County Home Demonstration Agent.

If the temperature of the food has not risen above refrigerator temperature (40 degrees F.) then you may consider refreezing it, provided it has acceptable odor, texture, and color.

The process of refreezing in itself introduces no hazard, if the partially thawed food is safe to eat, it is safe to refreeze.

Here are facts about refreezing from research by USDA's Agricultural Research Service and other agencies:

A rise in a food's temperature up to thawing impairs

color, flavor, and texture, and the refreezing period causes further loss in quality. If the total time involved is short enough, there may be enough quality left to justify refreezing.

No health hazard is involved if the temperature of the food has not risen above ordinary refrigerator temperatures. Food poisoning bacteria have never been found to grow at temperatures below 38 degrees F., and they grow very slowly between 38 and 45 degrees F. Other bacteria can grow slowly at these or even lower temperatures; they cause off-odors and off-flavors that spoil foods but do not cause food poisoning.

TWO ASSAULT TO MURDER CASES ON COURT DOCKET

Set for trial in 104th District Court at Anson next week will be two assault to murder charges against two Stamford negro women. Also docketed for the week is a civil suit that has

been pending since 1961.

Although both charges allege the same offense, there is no relation between the two criminal cases. One charges that Nina Faye Cunningham, with malice aforethought, did assault with intent to murder Irene Cooper on Jan. 12 of this year.

Frances Ruth Hogg is charged in the other case. On Feb. 7, she is alleged to have committed assault on Albert Robertson. The woman was indicted by the grand jury on two counts. Both cases allege that the women charged had pistols.

The civil suit scheduled to be heard during the week is entitled John Ball vs. A. C. Humphrey, Bailly, a Breckenridge heavy equipment operator, seeks to collect balance which he says is due on a landscaping contract.

Monday morning of this week a suit, titled Johnnie Mae Walker vs. Northern Assurance Company, was settled out of court. A jury had been summoned to hear the case but was dismissed.

Husband of the plaintiff was killed and question dealt with distribution of the insurance. A previous wife, a child and parents of the deceased were involved. Compromise called for a three-way split. Total amount involved was \$11,805.39 but lawyers' fees and court costs must be subtracted.

Dates Set for Camp Fire Summer Camp at Lueders

ALABAMA MAN WRITES ABOUT COVERED WAGON DAYS IN AREA

A rather interesting letter was received at the Hamlin Herald office this past week written by Robert R. Gibson from Batson Memorial Hospital in LaFayette, Alabama.

In the letter he explained that he traveled in the Hamlin area as a young boy with a family named Lewellyn who had a buckboard, four extra horses and a covered wagon in which they lived. He said at times they had teamed up with another family, a Mr. and Mrs.

Rhodes and their unmarried daughter.

He remembers that he left the Lewellyns at Hamlin, about 40 years ago this coming summer to return to school. At this time there were approximately 25 covered wagons and families camped about a mile from Hamlin. They were there awaiting "trade day or days."

Now it seems that Mr. Gibson's friends in Alabama cannot understand that covered wagons were still being used for conveyance in early 1920's

here and he would like to receive word from some early resident of the area who could shed some light on the subject of covered wagons and the "trades day."

The Herald is passing along some of the items he mentions so that maybe someone might remember a part of this period of Hamlin's history and get in touch with Mr. Gibson.

In a hurried check of the 1923 issues of the Hamlin Herald we found no reference to the use of wagons but we did

find an ad for a man who wished to trade a number of cows for a second-hand Ford.

Also included in the letter was an editorial from the Atlanta (Ga.) Journal-Constitution which included information that he had written to one of the paper's columnists.

The columnist mentions that he did not give his age but did refer to himself as an "old-timer." She surmised that since he was a World War II veteran he would not be a doddering old codger.

The columnist related some of the stories he had written in about experiences as a youth traveling in West Texas with an abbreviated wagon train. She quoted Gibson about his first night out when the old three-legged iron Dutch oven starred in the supper preparations: "biscuits, soaked salt pork, eggs, strong coffee. . . I never tasted such food!"

She concluded: "All I have got to say is did an electric frying pan or, for that matter, an aluminum anything ever evoke such memories?"

(Editors note: All of this has made us curious about the happenings here two decades ago so if anyone has any information for Mr. Gibson we would appreciate knowing too, and we will send it on to him.)

THE HAMLIN HERALD

HAMLIN, JONES COUNTY, TEXAS, APRIL 11, 1963

SPRING WEATHER BRINGS ON HIGHER SCREWORM ACTIVITY

Mission — Spring weather over most of Texas means livestockmen are facing a busy season when calving, farrowing, shearing, dehorning and the many other animal husbandry activities are occurring. It could also mean screwworm activity may not be too far in the future, especially if producers are not careful in handling animals and treating wounds, eradication officials state.

The many open wounds, so attractive to the screwworm fly, that now exist because of the normal spring livestock activities make many areas of the state a "veritable tinderbox" for infestation, eradication officials warn. They urge producers to carefully treat every wound, whether a small nick or scratch or a large open cut, making certain that the insecticide used gets down in the center of the wound and is not drained away by blood. Spraying livestock with a solution of 0.25 per cent Co-ral or 0.5

per cent ronnel (Korlan) every two or three weeks, is also recommended.

Officials warn of the danger of moving screwworm-infested animals, a practice which could help the pest spread quickly into non-infested areas. State regulations prohibit the transportation of livestock before they have been checked for infestation and certified. This

applies to livestock being moved from areas south of the screwworm control line into other areas of Texas or the nation.

Every case now being detected is treated as an emergency in an attempt to quickly overwhelm the insect before it can infest other areas. This makes prompt reporting by producers imperative, officials said.

C. G. Scruggs, president of the Southwest Animal Health Research Foundation, has stated it would be traitorous for a man not to report anything he thinks is a screwworm case. A few cases that are not treated and reported at this time could ruin and waste everything that has been done up to now, he said.

FACTS ABOUT PLYMOUTH'S NEW WARRANTY*

DOES IT INCLUDE THE COST OF LABOR?

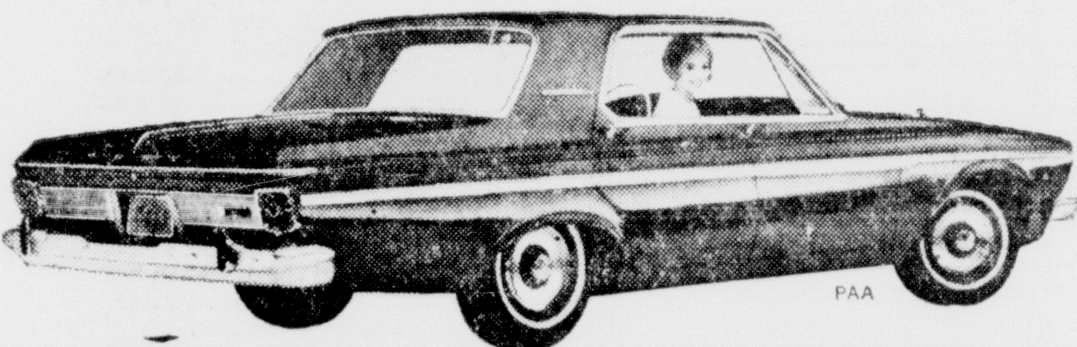

Yes. There is absolutely no charge for labor and parts. For the entire life of the warranty, should any defect in material or workmanship occur on the parts covered by the warranty, it will not cost you one single cent to have this defect corrected.

DOES IT COVER EXPENSIVE PARTS?

Absolutely! It covers the major power train components—the engine block and its internal parts, the automatic transmission and its internal parts, the rear axle. These are parts that would normally cost plenty to replace or repair.

IS IT TRANSFERABLE WHEN YOU SELL THE CAR?

Yes. As long as the car has been serviced at reasonable intervals according to the Plymouth-Valiant Certified Car Care schedules, the warranty can be passed on to the new owner. Think what that will do to the resale value of your Plymouth!

Your Authorized Plymouth-Valiant Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers); rear axle and differential; and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Plymouth-Valiant Certified Car Care schedules.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Every one is rejoicing over the rain that fell so nicely last week, which amounted to a little over an inch, generally. Since it was so long falling and none of it was wasted, it was really a life saver to the wheat crops. We are hoping for more, but thankful for what we got.

Another thing which is very nice, the time has come that the fruit crop is safe again. Since none was made last year, the cold weather killing it, all are glad to see it get by this year.

A good part of the folks out our way attended the singing in Anson Sunday afternoon. Mr. and Mrs. Raleigh Bond, Mr. and Mrs. Flavel Holmes, Mr. and Mrs. Jack Wright, Mr. and Mrs. Fred Rosenbaum and Mr. and Mrs. Winslow Gray were some of those attending.

Mr. Jonathan L. Wilson was a visitor in church Sunday morning and took lunch with the H.L. Fords. Mr. Wilson and his late wife were former residents of our community, he now lives in Abilene, and is a member of the Caps Baptist Church.

Midweek services were well attended, even though we didn't have any one to play the piano, we had a singing any way. Ricky Lewis being sick with sinus, the pastor's wife could not come, so we just had a singing with out the music.

Mrs. Henry is reported to be doing real well after her surgery. Mr. Henry's sister, Mrs. Ethel Bullock, is staying with them while Mrs. Henry is recovering.

Mrs. Mel Jones and Mrs. Elmer Joiner visited with Mrs. Henry Monday afternoon. Flavel Holmes and Jack Wright went to Stamford and visited with Mr. Wainscott in the hospital, Sunday afternoon.

Mr. and Mrs. Woodrow Goodwin spent the day with Mr. and Mrs. Elmer Joiner Friday and they all watched it rain all day, which was a good way for Woodrow to cele-

brate his birthday.

Mr. and Mrs. Elmer Joiner spent the weekend in Odessa with their son, Mr. and Mrs. Buck Joiner and children. Larry McCoy went with them.

Since grandmothers love to do a little bragging, this one was happy to learn that Charles Joiner had won first place in the first division, at the University Interscholastic League tryouts, with his third class solo on the alto saxophone. Charles is a member of the band at the Hood Junior High School, in Odessa, and one of the three in the first division. He and Jerry, who is also a member of the Hood School band, played in the Hamlin band until they moved to Odessa a year ago.

We hear that Mrs. Winslow Gray was a lucky winner at the Production Credit meeting in Stamford, Saturday, having won \$25.00.

The Drakes are working on their house, putting siding on it.

Mr. and Mrs. Woodrow Goodwin and Linda, went to Spur Saturday night to visit with his sister, Mr. and Mrs. Archie Hogan.

Mr. and Mrs. Joe Ford visited with Mr. and Mrs. Henry Sunday afternoon.

The pastor and family took dinner with Mr. and Mrs. Joe Ford Sunday, visiting with his parents, Mr. Mr. and Mrs. Rex Jones and children, Abilene, were visiting with his parents, Mr. and Mrs. John O'Neal, Saturday.

STATE'S TORNADO WARNING SYSTEM READY FOR SEASON

Austin — Texas will meet the 1963 tornado season with one of the world's most complete storm warning systems, and with a well-oiled public health relief organization.

Radar storm warning sets in operation in 15 of the state's 18 first-order weather bureaus. All state highway patrolmen have been carefully schooled in the wily ways of the weather and are keeping a sharp eye on the sky as they patrol their sectors.

Texas' "local severe weather warning system," the first of its kind established anywhere in the world, is made up of sets operating around the clock in Amarillo, Abilene, Austin, Brownsville, Corpus Christi, Galveston, Fort Worth, Houston, Port Arthur, San Angelo, San Antonio, Victoria, Waco and Wichita Falls.

Of the first-order weather stations which cover all sections of Texas, only El Paso, Laredo and Del Rio do not have radar storm warning sets as part of their regular equipment inventory.

All stations are connected by teletype and radio. Any station is able to instantly appraise all other stations of a tornado traveling in their directions. When such a storm warning is given, the weather bureau immediately notifies all communities in the area via commercial radio and television station bulletins.

The radar sets are owned by the Weather Bureau, having been supplied from U. S. Government surplus stocks, but the cities concerned paid installation costs.

Louisiana and Oklahoma are cooperating in the southwest-

tern warning network by operating networks of their own. The Texas network is larger, however, by virtue of the area to be covered.

State Health Commissioner Dr. J. E. Peavy says the State Department of Health and local health departments stand ready at all times to provide public health know-how to stem health threats occasioned by weather.

Meanwhile, these precautions are still valid if and when a tornado is sighted:

Cut off gas and water before it strikes. Open windows on the north and east side of the house. If possible, take shelter in a storm cellar or cave. If this is impractical, sit down on the lowest floor of a strongly reinforced building, or against the southwest corner of a house. Stay away from windows.

In open country, move away at right angles to the path of the storm. If there is no time to escape lie flat in a ditch or depression to avoid flying debris. (A weekly feature of the Health Education Division, Texas State Department of Health.)

Observing Easter

"Jesus said, I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live: and whosoever liveth and believeth in me shall never die." John 11:25.

Easter, the day on which we celebrate the resurrection of our Lord, should find us worshipping Him in His Church. He is alive! His presence fills the sanctuary! All things are made new. It is the time of beginning again. Attend church and join your neighbors in singing praises to God for His Glory and Power and Love; and some of this Resurrection Joy and Power will come to you.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin — "Hi Partner" ... have you suggested a slogan for "The Longhorn State?"

Better get your pencil and paper out and start thinking. Everybody's doing it!

Reason is, there's a bill before the Texas House of Representatives calling for a slogan to be imprinted on our auto license plates. Three choices are given in the bill. They are "Lone Star State" ... "Vacation State" ... "Texas Has Everything."

Latter slogan was sent in by a newspaperman, Bob Bray, publisher of the Marble Falls Highlander.

Come to think of it, what's wrong with "Hi Partner"—the two words we used in starting this column? Sounds like the friendly welcome of a Texan.

Cost of adding a slogan to the Texas tags would run only

about \$150. Or just the cost of the new dies.

Speaking of license plates, ... a bill by Rep. Ray McNutt of El Paso would eliminate the front tag. Saving to the state \$400,000 annually.

UP IN THE AIR—Activities of state agencies in aeronautics filled the air in two recent meetings of the House Committee on State Affairs.

Rep. Ben Barnes of De Leon got a hearing on his bill to abolish the Texas Aeronautics Commission. It is asking \$436,000 for the next two years. Commission has been credited by some opponents of the bill with helping create landing strips in smaller communities.

Rep. Gene Hendryx of Alpine favored abolishment of the commission.

He said citizens of his town built their own airstrip with \$4,000 of local money, without

any governmental aid except for the use of some county bulldozers.

Land Commissioner Jerry Sadler protested a bill by Rep. Roy Arledge of Stamford which would force all agencies except the Texas National Guard, Texas State Guard, and the Department of Public Safety to sell all "executive-type aircraft" with more than 200 horsepower.

Sadler said the Arledge bill was aimed mainly at the Land Office. He insisted the State Land Office needs an airplane for aerial surveys of state land.

ANNEXATION COMPROMISE — Municipality annexation bill, as passed by the house, is considered a compromise by the Texas Municipal League. Ditto for interested industries—including the Texas Association of Homebuilders—that have been on the other side of the fence.

Straddling the fence during the four days it took the House to pass on the bill written by Rep. Henry Grover of Houston, and rewritten by Rep. Jerry Butler of Kenedy, were enough representatives to decide the matter for one side or the other.

Several votes indicated the cities might win the right to annex additional territory in a manner they consider reasonable. Other votes indicated the industrial pressures would be the winning factor.

Finally, 130 House members

decided Grover's bill was good enough to send to the Senate as a "workable vehicle" for a joint conference committee. But 14 felt that it still wasn't fair either to cities or to rural people living on fringes of the cities.

Main point in contest still seems to be: How much authority should cities have over surrounding areas subject to annexation?

As it stands, cities would be limited to setting "minimum standards."

AUTO INSPECTION DEADLINE — Col. Homer Garrison Jr., director of the State Department of Public Safety, has sent out a reminder to Texas drivers who do not have their 1963 auto inspection stickers that April 15 is the deadline.

If Rep. Terry Townsend of Brady has his say the \$1 auto inspection fee will be raised to \$2. But Rep. George Richardson of Fort Worth said he will oppose any increase.

CROP INSURANCE — Farmers will get more liberal crop insurance coverage under revised policies and rates issued by the State Board of Insurance. New plan eliminates the controversial mechanical-harvesting clause pertaining to cotton.

Revisions were requested by both wheat and cotton growers. Coverage will be available under economically-priced "escalator" and "step-ladder" forms, as well as "broad form" policies.

GOVERNOR'S APPOINTMENTS — Frank C. Erwin Jr., Austin attorney, was named by Governor Connally to the UT board of regents, to replace Judge W. St. John Garwood, also of Austin, whom the Senate earlier refused to confirm.

Jack Kultgen of Waco was his choice as State Highway Commissioner. He replaces Charles Hawn of Athens, whose term has expired.

Rev. C. A. Holliday, a Negro minister of Fort Worth, has been named by Connally to a six year term on the Texas Board of Corrections. He succeeds John S. Justin Jr. of Fort Worth. Connally pointed out that this is the first time a Negro had been appointed to the board.

Connally re-appointed to the Board of Corrections J. M. Windham of Livingston and Jack Vaughan of Dallas.

Dr. J. A. Chatman of Lubbock, Joseph A. Scott Jr. of San Antonio and Rev. Martin Griffin of Waco were assigned to the Texas Southern University's Board of Directors. All are Negroes. They replaced J. M. Odum of Austin, Mack H. Hannah Jr. of Houston and the late Dr. Everett H. Givens of Austin.

Mrs. Jack T. Bowman of San Antonio was appointed to the Board of Regents of Texas Woman's University. Mrs. John

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One looks at a problem this week but then throws up his hands.

Dear editor:

Somebody has to do it, and there's always plenty of men hunting the job, but being President of the United States is one job I wouldn't be interested in. Too many problems with no answers.

I don't mean to say that running this Johnson grass farm doesn't involve a lot of problems, and some of them may not have any answers, but I don't have to contend with a lot of people furnishing answers that won't work. And even in the worst year, there are always times when I can wake up some mornings without anything really bothering me. This doesn't happen in the White House.

For example, right now everybody wants the United States, and therefore the President, to do something about Cuba.

One man out of many I was listening to on television said the way to handle Cuba is simple, just cut off the flow of oil to the island, that'll bring Castro to his knees. Now I'll admit you can't run machinery on a country very long without oil. I've tried it with my tractor and it's the quickest way I know to bring it to its knees, and also to the repair shop.

So when somebody asked, "Wouldn't stopping a Russian ship bearing oil to Cuba be an

Hazelwood of Amarillo was re-appointed.

To the Texas Tech Board of Regents the governor named Herbert Allen of Houston and Roy Furr of Lubbock. He re-appointed Harold Hinn of Dallas.

LEGISLATIVE WIND UP — Governor Connally and House Speaker Byron Tunnell seem to agree that the 58th Legislature should wind up its business before the May 27 deadline. This should please the Legislators. They stop getting the usual \$12 per day living allowance 20 days before that deadline.

But many are afraid the loan shark bill may hold them here.

act of war? this man said, "Well naturally, I'm not in favor of war, what I mean is I'm in favor of stopping the flow of oil to Cuba provided it wouldn't be considered an act of war."

Yeah, and I'm in favor of skipping the payments on my television set provided it wouldn't be considered a default. I'm in favor of abolishing all taxes provided it wouldn't abolish the country.

One of the easiest jobs on earth is to tell somebody else what he ought to do, then move on to something else, and if you look back over your shoulder

and discover he's done it and the results are disastrous, you can always turn around and ridicule him for not having more sense than to do a fool thing like that.

This just doesn't happen under one President, it happens under all Presidents. But I guess they must have known this when they applied for the job.

Personally, I not only don't know what to do about Cuba, I don't know what to do about Africa, Egypt, France, Russia, China, Johnson grass, the state legislature, the high cost of living, or the knock in my 1949

Six Flags to Open Summer Season Saturday, April 20

The 1963 season for Six Flags Over Texas will commence on Saturday, April 20. The third operating year for the historical theme park, located midway between Dallas and Fort Worth, has been set up to begin on a Saturday and

Sunday basis only until June 1. For the months of June, July and August, Six Flags will be open seven days a week. Following Labor Day in September and continuing through December 1, the Park will revert to a week ends only operation.

Following a siege of bad weather a few weeks ago, which hampered the nearly \$1,000,000 expansion program, balmy

days have followed bringing smiles to the engineers and construction workers who are charged with having the Park in tip-top operating shape by April 20.

Projections on attendance for this year indicate an even higher figure than the 1,272,000 visitors who clicked through the turnstiles in 1962.

Part of the heavy expansion program is centered around a new six acre site added to the U.S.A. Section of Six Flags. It will be known as "Boom Town," depicting the days of the exciting oil discovery finds in Texas during the late 1890's and early 1900's.

In the year 2000, Easter Sunday will be on April 23.
